Greetings from CMMBC!

We are blessed to be the recipient of the 2018 Camp2Camp offering and have been busy preparing materials to share our dream with your campers. After much thought, prayer, and research, the CMMBC Board of Directors wants to share our plans for building a splash pad at CMMBC! Campers currently travel offsite for water activities during Junior and Senior Camps. For our Pathfinders and Trailblazers camps, we set up portable water games. We are looking forward to having an onsite splash pad!

For those of you who are familiar with the camp, you may be wondering where we are going to install the splash pad. Our existing basketball court (behind the Chapel) has deteriorated significantly and needs to be removed. We plan to place the splash pad behind the Chapel and rebuild a basketball court at a later date.

We have provided several formats of a video, a poster and an information sheet about the project, which we are calling “***Just Add Water at CMMBC.***” Please use the promo video during your chapel service to introduce the project to your campers. There are also fun facts about our region, as well as talking points to discuss with your campers. The Camp2Camp poster can be displayed around your camp at the Canteen or Dining Hall to let campers and parents know about our fundraising project for “***Just Add Water at CMMBC.***”

Don't hesitate to contact us if you have any questions.
