

WASH

WATER, SANITATION, AND HYGIENE

The water, sanitation, and hygiene (WASH) programming in Karawa and Gemena is contributing to improved child well-being through education, training, and targeted activities aimed at school children, and sanitation and hygiene improvements in homes.

Community-wide education campaigns are helping students and families understand the importance of good hygiene and sanitation practices, which are improved when clean water systems are developed.

Will you join us?

Save the date for the Global 6K: May 18, 2024.

Six kilometers is the average distance women and children in the majority world must walk for water. The Global 6K is an opportunity for you to make a difference and bring clean water to communities. Create or join a team with your church, friends, family, and community to walk together to raise funds for clean water in the Democratic Republic of Congo! Visit covchurch.org/6K to learn more.

Want to go even further? Run a longer endurance race for Covenant Kids Congo through Team World Vision. Funds raised will directly benefit the WASH (Water, Sanitation and Hygiene) programs in Gemena and Karawa, DR Congo. Covenanters raise over \$600,000 annually through this effort! Start or join a team today! Email lyndsey.watson@covchurch.org to learn more.

Through WASH Programming:

9,133 children in **Gemena** and **7,502** children in **Karawa** have access to handwashing facilities at school.

5,899 people in **Gemena** and **378** people in **Karawa** gained access to household sanitation facilities.

1,904 people in **Gemena** and **248** people in **Karawa** gained access to household handwashing facilities.

*FROM OCTOBER '22 TO MARCH '23
