FOR WATER

Saturday, May 16, 2026

*A young boy carries a jerry can full of water
on his daily walk for water in DR Congo.*

EVERY STEP YOU TAKE IS ONE THEY WON'T HAVE TO.

Why 6K? It's the average distance people in the developing world walk for water every day.

When you and thousands of others cross the finish line, you'll help change the lives of women and children by freeing them from a life spent collecting dirty water.
