Re: Instructions for tax reporting of life insurance over \$50,000 for employees

The group term life insurance benefit that you provide to your employees from Covenant Benefits is in the amount of \$100,000 (up to age 65). IRS publication 15-B allows only up to \$50,000 of group-term life insurance paid by the employer to be tax-free. **The benefit of the life insurance policy in excess of \$50,000 must be reported as taxable income to your employees in the following manner:**

- Calculate the taxable benefit amount to report for each individual based on the table on the reverse side, using the age of each employee as of December 31, 2025.
- Please note that insurance coverage for employees between the ages 65 and 69 is reduced to \$65,000, so only \$15,000 should be used in the calculation. The life insurance benefit for employees age 70 and older is reduced at or below \$50,000, so no calculation is required.
- Report taxable benefit amount in the following manner:
 - (Optional) Report the calculated amount as taxable income on payroll for each employee, subject to social security and Medicare taxes if you usually withhold social security and Medicare taxes AND
 - Include the calculated amount as wages in boxes 1, 3 and 5 of the employee's W-2 and show it on line 12 of their W-2 as Code "C"

If you have any questions, please contact our office.

Sincerely in Christ,

Christina J. Kempe
Director of Covenant Benefits

Example:

Pastor #1

Life insurance start date: 2/1/2025

Date of birth: 5/1/1990

- Number of months insured: 11
- Age as of 12/31/2025: 35
- Life insurance amount over \$50,000: \$50,000
- Benefit value per \$1,000 life insurance for age bracket: \$0.09

Calculation for Pastor #1:

$11 \times .09 \times 50 = \textbf{\$49.50}$ added to payroll as taxable income and included on W-2 in lines 1, 3 and 5 and line 12 with code "C"

(11 months of life insurance in 2025; \$0.09 per \$1,000 life insurance; \$50,000 life insurance over non-taxable limit)
