## Samuel anoints David

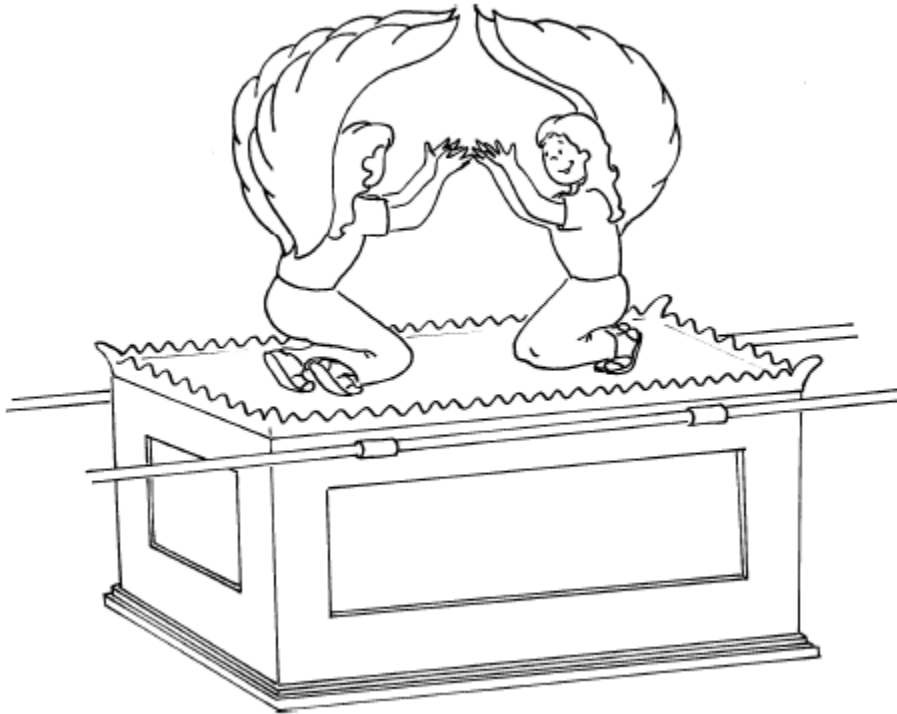

In Bible times the priest indicated who the new king would be by anointing him with oil (over his head). Samuel anointed David many years before David came to the throne.

Today, sometimes pastors use oil to anoint people who are sick, but instead of pouring it over their head, they might put some on their finger and draw a cross on the sick person's forehead with the oil. In some churches they anoint those who will serve as elders or pastors.

The ark of God

# Adventures with GOD!

**A box made of gold where Moses and the high priests believed the presence of God to be, while the Israelites traveled in the desert. The ark was kept in the Holy of Holies in the Tabernacle and also in the Temple that Solomon built. The high priest entered the Holy of Holies once a year to be in the presence of God and to make sacrifices on behalf of the people for their sins. When Jesus Christ died, He became the high priest, who entered the presence of God and opened a way for us to come to God. We can enter God's presence, through prayer, any moment of the day or night.**
